1 HR 33 MIN AGO

The House **rejected a war powers resolution** on Thursday that would have required the Trump administration to seek congressional approval before continuing military action in Iran.

President Donald Trump **ordered strikes on Tehran on February 28** and called for the overthrow of the current regime. The conflict has escalated across the Middle East since then — with **European countries pledging military aid** to Cyprus and Western allies in the Gulf, and US-Israeli and Iranian strikes continuing into the **sixth day of war**.

The GOP-led Senate also **rejected a similar measure** to rein in Trump's war powers in a 53 to 47 vote on Wednesday.
